OUR STORY

Elephant Retirement Park 9 Dee Phuket has been established to create a haven for retired elephants. Formerly working in building yards or the entertainment industry has drastically altered their ability to function in Thai society. **The elephants retirement 9 Dee Phuket** is home to our thirty formerly mistreated elephants, which are now free to enjoy their lives in freedom and peace.

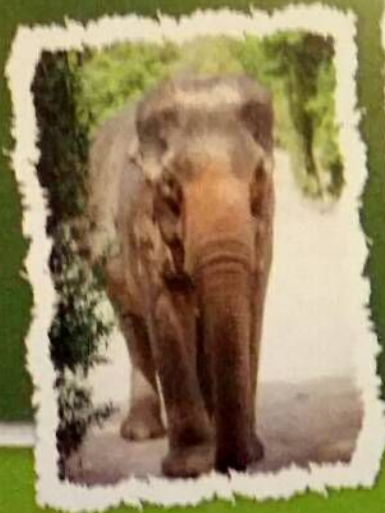

HOW CAN YOU HELP?

The money we get from people visiting and volunteering is used to keep the elephants happy and living a lifestyle without force.

WHAT THE MONEY USED FOR?

At the Elephants Retirement the money which is raised from visitors, volunteers, merchandise and donation are strictly used for the elephants care. A portion of that money will go to for future rescue, food, veterinary care, infrastructure and land, so we can constantly grow and expand the capacity of our elephant retirement park. The other portion of money is also designated to

OUR MISSION

We are extremely proud of our strict policy in the treatment of our elephants. We strive to provide to as many elephants as possible with good health, freedom and happiness they truly deserve. We use our progressive and ethically responsible approach to elephant eco-tourism as a platform to raise awareness and educate people from Thailand and around the world about elephant care and the plight of the **Asian elephant**.

WHAT WE ARE DOING TO HELP?

At the Elephants Retirement Park 9 Dee Phuket, we are giving them a place to live in freedom from danger or harm. We keep our elephants together as a family, and do not subject our elephants to train or allow any tourist to ride our elephants. We want people realize that these lovely creatures should be treated with love and care instead of abusing them.
